Summer School

(AN EDITORIAL)

The people of Canyon can be especially proud of the program of the College Summer Session this year. Never before have there been so many outstanding visiting lecturers and instructors and special courses for teachers and other citizens who want to be up-to-the-minute on current affairs. Nearly everybody who lives here has moved from somewhere else. The rich summer program, and the fact that there are two six week's terms, suggest that this would be a good year for every family of Canyon and Randall county to write back to friends in the old home, telling them of the advantages of college and climate which Canyon offers for the summer. Fifteen hundred to two thousand students could easily be brought to the College through such a friendly campaign. Write to your friends and tell them of the work planned for the summer.

Grading of Towns Made for Tourists Centennial Year

Inspector Here Yesterday Makes Suggestions —Final Inspection to be Made Soon

Towns and cities of Texas on the main highways which are graded No. 1, will be published as attractive places for tourists to stop during the Texas Centennial. This grading is being done by the State Health Department.

Louis Dodson was here yesterday making the preliminary survey, and will return next month to make the final inspection.

Mr. Dodson states that Canyon will grade No. 1 so far as milk, water supply and sewer disposal is concerned. The survey shows the grocery stores to be in good shape.

The greatest need as shown yesterday is a better garbage disposal system. The city can hardly afford to put on a regular garbage collection system as is used in the large cities, but Mr. Dodson suggests that each business house which has perishable refuse provide itself with fly proof garbage cans. Homes can greatly assist in keeping down the flies this summer by quickly disposing of all garbage which draws flies.

Mr. Dodson urges that all owners of cows within the city limits join the Randall County Dairymen in having their animals tested.

If Canyon grades No. 1, the name will be listed in all Centennial advertising of desirable places in which tourists may stop. This will not only be of advantage for those coming from the outside for the Centennial but will be an inducement for people to come to the Palo Duro State Park during the summer.

GETS HURT IN ACCIDENT MONDAY ON REPAIR JOB

Bob Boling received very painful injury to his left foot while helping load a transformer on a truck by the use of an H frame. Fortunately no bones were broken, but Mr. Boling will be confined to his bed for several weeks.

The accident happened Monday morning after all employees of the Texas Utilities Company had been up all night repairing the damage done by static created by the duster Sunday night.

Senator R. A. Stuart, accompanied by Mrs. Stuart, will arrive this afternoon from Fort Worth. Dr. J. G. Ulmer of Tyler and John E. Hill of Amarillo will arrive tomorrow morning to make an inspection of the building.

Dr. J. A. Hill states that it is planned to have the furniture for the addition in place by the first of June in order that the new rooms may be used during the summer session.

Mr. Hill states that no word has been received on the ten cottages, as a number of difficulties have arisen. The contract was let several weeks ago to J. B. Maxey of Lubbock. It is not known when this construction will get underway.

Slack and Bellah To Stand Re-Election As Trustees

Election Will Be Held April 4th—Slack Has Record In Serving on Board

The annual election of school trustees will be held on Saturday, April 4th. Next Tuesday, March 24th, is the final day for filing an application for place on the official ballot.

The term of office of T. V. Slack and Alfred Bellah will expire. Both have expressed a willingness to continue serving on the board, and their application will be filed for a place on the ballot.

Mr. Slack holds the honor of having served longer on the board of trustees than any man who has served in this capacity. He is closing his 14th year as trustee. He was elected in April, 1922, when the consolidation was completed of the Canyon Independent School District and the two common school districts. He has lead the ticket in each election.

Mr. Bellah is serving his first term on the board, having been elected three years ago, the year the new law became effective to extend the term of trustees from two to three years.

John Guthrie has been named judge of the election and will be assisted by Miss Elva Fronabarger and Mrs. A .C. Donnell.

The Canyon schools have progressed wonderfully, coming thru the depression in splendid shape. The schools have been maintained on a cash basis, which is most unusual for districts of this size.

Negro Company at Palo Duro To Be Demobilized Soon

Veteran Company Will be Returned Here Soon—Number Changes Slated for District

CCC Company 2375 at the Palo Duro State Park will be demobilized on April 1st, according to orders received yesterday by Captain Charles Krausse. Company 1828 from the Fuqua Ranch, north of Amarillo, will return to the Palo Duro. This company spent two years at the Palo Duro. Captain Adair, commanding officer, was recently transferred from the Palo Duro to this company.

It is reported that CCC work in this section will be considerably reduced on April 1st, with the demobilization of the veteran company at Lubbock, and transfer of many of the enrollees to the Palo Duro.

The negroes at the Palo Duro will be transferred to other companies as was the case when 1876 was demobilized in January.

Supt. William Anderson states that the whites will be better adapted to the construction work now under way at Palo Duro. A double shift was started Monday in order to complete the test cabin by April 15.

TB Test of Dairy Herds to Be Started Next Monday

Work will start Monday in Randall county vaccinating 1400 head of dairy stock owned by members of the Randall County Dairymen's Association. This is the annual test which is sponsored by members of the association.

Schedules have been adopted for the veterinarian to to cover the county in order that as little time as necessary to take to reach all the dairymen who have signed up.

The work will be largely completed by the 30th of the month.

Arrangements have been made to include in this test dairy stock which is owned in Canyon. In order that citizens of Canyon may take advantage of the low price which is made to the dairymen by the veterinarian for this annual test, owners of cows must list their cows at the office of County Agent W. H. Upchurch on or before Monday, March 30th.

Persons living in Canyon should not overlook the opportunity of receiving this service, and file their applications at the first possible minute.

Liquor Sale Will Be Held in Canyon on Next Monday

A most unusual event is scheduled to take place in Canyon next Monday, when Sheriff Bob Barnett puts up for sale about $1800 worth of liquor, which will be sold to the highest bidder.

There might be plenty of bidders were it not for certain restrictions which must be observed.

In the first place, the bidder must be a legal dealer under the State Liquor Control Board.

In the second place, the highest bidder must be approved by the Board before the sale is completed.

In the third place, the buyer must stamp each bottle before it can be removed after the sale is approved.

FARMERS WILL RECEIVE PAY 20c PER ACRE

Contour Listing Must Be Made in Conservation Program Under Jones Plan

WORK HAS STARTED

Believe Money Will Be Available by Next Week —Contour Crews Start on Lines

Listing of 60,000 acres in Randall county under the wind erosion plan of Congressman Marvin Jones, has started. Farmers will be paid 20 cents per acre for this work, and it is expected that the money will be available by the first of the week.

Under the provisions, every farmer who has land subject to blowing may receive the 20 cents per acre for listing, provided that it is done on contour.

County Agent W. H. Upchurch has eight crews of men in training for running contour lines. Four crews will be at work today, and the others probably available for tomorrow. These crews will be paid by the government out of the money which is coming.

Farmers may speed up this control work by having contour lines run now, and those who have the money may start listing, and receive pay when this fund is available.

The bond for handling this money is expected today, and as soon as approved in Washington the money will be available to the farmers.

The only restrictions on the money will be that contouring must be done, and the land subject to blowing.

A dust storm swept over the Plains Sunday night, doing considerable damage. There is no estimate of the amount of land which blew in Randall county, but farmers from the various parts of the county report damage. This is the first destructive wind of the year. While dust has been in the air several times this year, it has come largely from the outside territory.

Every possible means is being used to speed up handling this listing program, which is a part of the permanent soil conservation work being taken up by the Department of Agriculture.

Mrs. McCormick Is Awarded V-8 Car In Nation-wide Contest

Mrs. Alice M. McCormick of Canyon was awarded a new V-8 Tudor sedan Monday as the result of having submitted the best 25-word statement in the nation-wide contest sponsored by the Acme White Lead and Color Co., of Detroit. The subject was "Lin-X," a waterproof varnish, manufactured by this company.

Mayor C. R. Burrow of Canyon made the presentation. Walter Irvin, local Ford dealer, made delivery of the car. Arch Hunsley of Amarillo is district distributor of Lin-X, from whom Mrs. McCormick bought the 79 cent can which won her the prize.

Lester Lloyd of McCann-Erickson, Inc., Oklahoma City, was here to supervise the presentation. His company handles the advertising for both the Ford and Acme companies. John McCarty, editor of the Amarillo Globe-News, accompanied Mr. Lloyd to Canyon.

A large crowd gathered at the Walter Irvin show rooms to offer congratulations to Mrs. McCormick. While she has answered several national contests, this is the first major prize she has won. It was stated that she was winner over 12,000,000 who entered a statement of 25 words in this contest. Her statement amounted to $25 per word as a return for her efforts.

Mrs. George W. Cox left Monday for Temple where she will spend a month for medical treatment.

PANHANDLE MEMBER PRESS ASSOCIATION

Who is going to pay the cost of the state government? We see that each candidate who is running for Governor Allred's job advocates the reduction of different kinds of taxes. Each one has a hobby that the state can do without many kinds of services, but each carefully refrains from mentioning any department, or feature of the government that he would personally recommend to be discontinued. Mr. Candidate, meeting the people, has a much bigger idea of his importance and his ability to save the people's money than does His Excellency, the Governor, safely seated in office. The state is now ten million in the red; the people voted twenty millions in relief bonds, which must be paid off; the people voted in favor of old age assistance, which will run 30 to 40 millions annually. To meet these obligations, real money must be placed into the treasury of the state. Campaign promises will not get the job done. Many candidates honestly believe in their ability to reduce the expenses of state government, only to find after election that the people are demanding more services from the government, rather than demanding that some service be curtailed. The cost of government grows year by year, regardless of what any candidate may promise.

Senator Small continues discussing state problems from a fearless viewpoint. The sales tax is not in much favor throughout the state owing to the publicity given it in the race for governor two years ago, and the fact that more propaganda has been issued against it than favorable discussion made for it. Yet Senator Small pointed out to the cattlemen's convention at Amarillo last week that it looked like the sales tax must be passed in order to pay the debts of the state, and to pay the old age assistance. Of course that is going to make the anti-sales tax people furious that Senator Small should dare venture the assertion that little was left in the state which could be taxed. All agree that property taxes are too high; many are convinced that special taxes will not meet the tax bill; those who know anything about the state's affairs are convinced that it will be impossible to increase taxes on natural resources sufficiently to pay the state's debts and keep up with the increased cost of government. Those who oppose the sales tax cry for some other form of taxation, or to reduce the running expenses of the state; but unfortunately they have no sound ideas as to how the job may be accomplished.

The European situation seems to have developed into a game of bluff. Germany moved to the Rhine; France demanded a withdrawal of the Germany troops; but keeps looking over her shoulder to see which nations will line up behind them. There seems less incentive for going to war than seemed in evidence last week. Perhaps cool judgment, and the lack of interest on the part of England and the United States may have something to do with the situation. This nation has made itself clear that it is unwilling to finance another world war; England is always willing to do her own bluffing, but is unwilling to let another nation do the talking for her. It will be a great blessing if war may be averted.

President Roosevelt has regained the popularity which was lost by the adverse Supreme Court decisions. Many people love a winner. When it looked like the President was losing out, many were willing to swap had the national election been held at that time. The appealing personality of President Roosevelt is doing more to regain national confidence than anything else. That he is working for the interest of the masses of this nation, none can hardly deny. Few of them will forget that when election time comes around.

The News is forty years old today. Established in 1896 as The Stayer, this business has been a real part of the development of Randall county. The News has had in mind for several months to publish a special historical edition upon this occasion, but believed that economic conditions do not justify the expenditure of the amount of money that is necessary for such an edition. Something special is in the offing, and citizens will learn more about it tomorrow.

Herbert Hoover nas improved as a speech maker, but is short minded as a historian. He claims that Roosevelt is responsible for the panic of the depression, forgetful that 10,000 banks closed during his administration. He forgets that few banks have closed during the Roosevelt administration, and that in all cases the depositors insurance corporation has paid off the depositors in the closed banks very promptly. The confidence in the nation during the Hoover administration has largely been regained.

Much has been said about lobbying. We have reached the conclusion that the only way to distinguish a lobbyist is to determine the attitude of the one who makes the charges: If a person is working for a project in which we are interested, he is a patriotic citizen; but if he is working against a project which we favor, he is a low-life, good for nothing lobbyist who ought to be shot just on general principles.

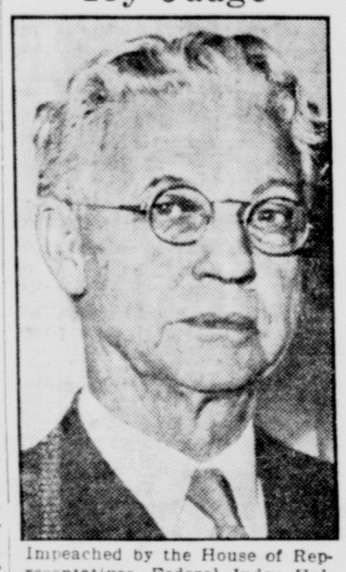
After New York Elevator Operators Struck

There were many sore feet in Manhattan when elevator operators and maintenance employes in apartment and office buildings walked out, demanding general wage increases. The grocery delivery boy pictured at left toiling upward and onward in a Park avenue apartment building apparently is not entirely in sympathy with the strike. The photo at top right of the financial district, one of the areas involved in the strike, gives an idea of the flights of steps facing the climber before he reached an office on the top floor of one of the skyscrapers. In the picture at lower right strikers are calling to workers at 820 Park avenue, where Gov. Herbert Lehman lives, ot "come on out" and join them.

U. S. Senate Will Try Judge



Impeached by the House of Representatives, Federal Judge Halsted L. Ritter, above, of the southern district of Florida, faces trial by the U. S. Senate. The impeachment was voted 181 to 146, after Judge Ritter had been charged with benefiting from alleged excessive receivership fees set by himself.

is any oil any different?

Different because it's
alloyed

We don't mean one of those "talking point" differences. We mean a real difference. Alloying Germ Processed oil goes beyond refining and re-refining. After every harmful element is cleaned *out*, the patented Conoco Germ Processing element is scientifically put *IN*.

That's what brings you this *alloyed* oil, with its strange attachment for pistons, cylinders, and all other engine parts—including every known type of bearing. All these parts really become *oil-plated!*

This oil-plating is extra. It's a plus—added to the tougher, more slippy, heat-beating Germ Processed oil film. You've got this high-durability oil film, sliding on thoroughly oil-plated surfaces, and so you're that much farther from wear and noise.

You're facing hotter days and harder runs. Out with dirty winter oil! Only the Conoco man can change you—quickly—to Germ Processed, the *alloyed* oil. Continental Oil Company.

Yearlings Beat A. J. C. Badgers To End Season

Win Nine Victories In Eleven Games Played

In terminating their 1936 cage season, the W. T. Yearlings piled up a comfortable lead in the introductory period and coasted back on their heels in the final canto to come out on the heavy end of a 38-26 count over the Amarillo Junior College Badgers in Burton Gym last Monday.

The victory was the ninth of the season in eleven starts, and the fourth straight over the Badgers.

From the moment "Red" Hayes commenced the scoring debacle on a well-thought out offensive play, there was no doubt as to the possible outcome. When the game was but twelve minutes old, the hoopsters of Bob Cox manufactured a 19-3 lead, and maintained a 27-7 advantage at mid-time.

The last chapter grew to a feverish affair as the visitors slowly whittled the lead of the erratic Frosh. Hanna, skilled one-handed shooter accounted for six markers in this half. Both teams became wild as swarms of substitutes flooded into the encounter. Lloyd Johnson, Frosh forward, paced the offensive division with 10 points, followed by Hanna of the Badgers with nine.

Horace M. Russell of Amarillo talked Tuesday at the Rotary luncheon of the first Austin to Santa Fe Expedition which was staged in 1841 as described by George W. Kendall, a newspaper man with this expedition. Kendall published the experiences of this trip in two volumes, now out of print.

The trip started from Austin in May, 1841. Twenty-four covered wagons were used by the 270 people in the expedition. The territory was uncharted, and it was believed that Santa Fe was about 500 miles away. However the expedition traveled a total of 1300 miles to Santa Fe, which was then a part of Texas.

Various experiences were read from the account, which was written in a vivid style. Following the wrong river, the expedition came to the present location of Wichita Falls where a complete Indian village was found. Turning west, another tribe of Indians killed a large number of the party in the vicinity of Briscoe county.

A vivid description is given of the Palo Duro Canyon when the expedition suddenly drove up to its rim. Crossing the canyon, the expedition went west at some distance south of the site of the town of Canyon, on to the sites of Hereford and Tucumcari.

The reception in the Santa Fe territory was unexpected. In contrast to the friendly reception they expected, those who had survived were arrested and started south through El Paso to Mexico City. Several things of modern development are noted in the book; that syrup was made of corn; that the women of Santa Fe smoked cigarettes and made red marks on their faces.

Visitors were: Henry Buthner, Cal Farley, Bill Riddle of Amarillo; Harvey Cash and L. F. Sheffy of Canyon.

Mr. and Mrs. Ed Pilley of Morton were week end visitors at the home of Mr. and Mrs. Lige Frieze. Mrs. Pilley is a sister of Mrs. Frieze.

Madrigal Club Will Give Its Program at W. T. Thursday

March 26th has been set for the annual concert of the College Madrigal Club. This is the most important musical event of the spring, and people from all parts of the Panhandle come each year for the program, to which all music lovers are invited.

The Madrigal Club has thirty-two members, all of them experienced singers. The work of the club, under the direction of Mr. Wallace R. Clark, has been highly commended by critics within the state and by D. A. Clippinger, of Chicago, America's foremost authority on Madrigal music. Mr. Clippinger was guest director of the concert given by the club three years ago.

The songs which will be sung this year include old and modern madrigals, chosen from the library of madrigal music which belongs to W. T. This library is probably the most extensive in the United States, giving the club an opportunity to give programs of great beauty and variety each year.

The concert will be given in the Auditorium of the Education Building; the time is eight-fifteen.

AN EXPLANATION

I wish to explain for the benefit of my friends that I was appointed by the Austin office of the Old Age Assistance Commission, as investigator, which required me to be away from home at times. Because of Mrs. Knight's ill health and other reasons, I declined, and heartily recommended Mr. O. W. Gano, who could serve with credit to the present administration and to the old folks, hence his appointment by wire.

JOHN KNIGHT.

Fortenberry Wins Game For Oilers

Joe Fortenberry, former Buffalo basketball star, and who is now playing with the nationally known Globe Oilers, was credited in the New York Herald Tribune recently with winning the game played in Madison Square Garden, March 12, against a Metropolitan college team.

Here is how it happened. In the last few seconds of play, a member of the opposing team put a headlock on Fortenberry just as the latter was in the act of trying for a goal. The referee assessed a penalty of two shots in favor of Joe. The tall Texan stepped forward to the gratis throw line and sank the ball each shot to place the Oilers two points in the lead. The gun sounded. Joe had added another page to his basketball history.

Buffs Lost in First Game Played Monday in National Meet

The Buffaloes lost the first game played in Denver Monday to the Arkansas State Teachers 46 to 32. The game was in the first round of the National A. A. U. Basketball Tournament.

George Colvin was not sufficiently recovered from the recent attack of mumps to be able to play in the game. This was a distinct loss for the Buffs, and probably caused their defeat.

Arkansas lead 18-3 until a few minutes before the first half ended, when the Buffs went on a scoring spree and the score was run up to 21-12 when time for the half was called.

Near the end of the game they staged another rally and came within five points of evening up the tally.

The team remained over to see some of the tournament games as much valuable experience will be gained by the men who will play next year.

Spring Football Season Is Open

VOL. NO. 10. CANYON, TEXAS, MARCH, 19, 1936. NUMBER 27

Wel, kids had ye noticed the green grass a sproutin out an the leaves a poppin out on the trees. I betcha had, cause ye are already goin on picnics. An by the way its time to ketch th spring fever agin. Yessir, Sewel ketched it first; he shore looked good a dosin in assembly tother day.

Thet perfesser Condron shore did tell about a lot uv hobies a feller coud ride, but Ive been satisfyd riden ole Israfel fer about twenty years. I started to ride him to the Cattlemens Convention but I felt sorry for him; so I flagged sum uf them teachers down an rode up with them. I hadn't heard of that fancy thing called hobies before, but I guess my whittling must be one of them.

Now ain't them intermurals th limit. Them freshmans got beat once; then they jus cum out uf it and won th whole tourneymint. Them seniors wus shore showin up til they met th freshmans fer th champunship game. Welsir, I didn't know thet Fred Hart wus a atherlete till Boots fouled out in the Junior-Senior game when th score wus tied, an believe it er not the senior side uf th scorebord went right on up an ended one mark ahead uf th juniors.

Its shore tuff thet ye got beat at last seniors.

Now them gal intermurals is shore funny, speshully th senior gals. I'm jus a wonderin how it'll turn out. I herd sum uf them boys giglin' about there not bein much room left on th court after th seniors team, Sarah Bourn, Annie Williams, Mildred Clounch, Lecy Mae Furlow, an Red Watkins gits on it, but Billie Bee Flesher Ruby Guthrie, an Geral Dean Heath seems to don't take so much room. But layin aside all remarks, they really can play ball.

Wel I guess we're all atherletes up here. I see Mr. Sanders is gittin his track men all out to wurk. It shore looks like ther out to win sumthin to see um goin aroun th track in th purple suits. Yes sir, an Mr. Coach Jones has got a bunch uf football players out a tuggin an rootin on the ole field. It don't seem like thet new age-limit had any ufect on th team either.

16? Will It Increase?

Why don't more boys come out for spring football? Are they too lazy? Are they not loyal? Don't they have any ambition? There are certainly a lot more husky, able boys in Canyon High than are coming out. A neighboring class B school had 65 men out the first day, while we had only 16. Isn't that a ridiculous showing?

Let's get a little bit of school spirit and make a front page name out of the Eagle's football team.

ARE YOU ONE?

At no time in this school year have so few people made the honor roll. In this list many of our scholastic stars are missing because they just failed to turn in a book report, a theme, memory work, or a notebook.

We don't know whether the students are lazy, (we know they are not dumb), or just keep putting off things until the last minute, and then fail. Something is wrong.

Are students going to allow spring fever to cheat them out of a grade or out of a promotion before they are aware?

SENIORS HOLD ANNUAL STUNT NIGHT APRIL 3

Benefits Go to Senior Class for Gifts and Trip; Clubs and Classes Preparing to Give Programs of the Evening. Queen of C. H. S. Will be Crowned.

Whoopee! It's on its way! April 3 has been set as the date for the third annual Stunt Night of Canyon High School.

Clubs have begun work on their stunts, and classes have started planning campaigns for their candidates for King and Queen, who will be selected this week.

The benefits from the Stunt Night will go to the Senior class to help pay for their gift to the school, and their trip to Carlsbad.

Prizes will be given first and second place winners of the stunts. Immediately following the stunts given by the different clubs of the high school; the coronation of the Queen of Canyon High School will take place.

What! Seniors In Second Childhood

Can you imagine senior girls playing dolls, or making little dolls out of clay, or seniors studying their lessons or going to bed and dreaming bad dreams on murders! What, is this insanity?

All this has been happening since the seniors started studying "Maebeth."

Ruby Guthrie and Geral Dean Heath brought in their work, or play things, Friday when they brought in three horrible witches, and King and Queen Macbeth in miniature. Mary Ella Davis, and Lecy Mae Furlow, also brought in their kings and queens dressed for the Globe theater.

Sherman R. Higdon Gets New Position

R. E. Prichard, the Eagles' football and basketball manager, resigned his job to take up spring football. Sherman Higdon has been given the position.

Sherman said, "I am glad to be the next year's football and basketball manager, and I will do my best to make a good one."

The manager checks out the suits to the players, and puts them up each day. On all the trips, he takes care of the balls and suits and packs them in the box after the game. At the end of the year, he receives a sweater like that of the lettermen of the squad, with the exception of the word manager written in the "C."

Students Write Of Early Canyon

The essays written by the journalism students on some phases of early history of the county were submitted to the Texas Centennial Committee last week to be judged.

The essays vary from Indian scares and the coming of the railroads to the biographies of early settlers. The Texas Centennial Committee which is composed of Mrs. C. R. Flesher as chairman, Mr. Clyde W. Warwick, President J. A. Hill, and Mr. L. F. Sheffy will select the best essay of the group to send to the Texas Centenial Contest which is to be held in Dallas April 1.

Congratulations Or Sympathy, Mary?

A heated discussion raged in the American History class last Friday, when the class was divided in two parts and the sides argued the question of which is best, the telegraph or telephone. Rabid examples were advanced in some of which the telephone was superior, in others the telegraph.

Mary Collins put forth the idea that, on a person's death, congratulations, (a new word for sympathy), could be sent much faster by telegraph. It must have been a very confusing argument.

GUESS WHO?

Slightly girl-shy,
Though a football guard;
His boxing-gloves fly;
He hits them hard.

Answer to last week's "Guess Who," Anna K. Overton.

Wup! Hit A Bump!

He first appeared with a pink sweater tied around his waist.

He next appeared with Mary Ella Davis' red-checked smock covering his body. He spent the entire evening with the smock around his body.

Don't get alarmed folks, "Tubba" Lisle is not turning an artist. He only fell down, and his poor pants refused the added strains; so a hole appeared in the seat of his pants.

Jr. Play Benefits Jr.-Sr. Banquet

A Junior Play, directed by Miss Edith Shields, will be given in a few weeks to raise money for the annual Junior-Senior banquet which will be given later in the spring.

"A Scream in the Night" and "Let's Pretend" were the two plays ordered for examination, and the play will be chosen from these two. The cast will be chosen from members of the Junior Class.

DID YOU KNOW?

That the first depot was built in Canyon in 1891?

That Mr. and Mrs. John Knight, who celebrated their forty-fifth wedding anniversary March 1, were the first couple to be married in Randall County?

That Mrs. John M. Davis, grade school teacher, graduated from Canyon High School in 1908?

That the American Hotel was the old Court house?

Note: This column, in keeping with the Texas Centennial, will be run each week to give you interesting facts about the history of people and events in Randall County.

STROUDS HAVE A NEW CAR

In a little garage
Not far from here
Is a beautiful Dodge
Near a store—to the rear.

The hamburger man
Was full of glee
Until a red-headed woman
Said, "I'll keep the key."

Now he is forlorn
And wishes to roam,
But she drives the car,
And he stays at home.

Now he prays at night,
And he says, "Dear Lord,
Give back my dear money
And also my Ford."

Collins Heads '37 Eaglettes; Davis Is Best Player

Ten Girls Receive Letters as Their 1936 Schedule Comes to a Colorful End. Successful Season is Predicted for '37.

Mary Collins, junior, was elected '36-'37 basketball captain last Thursday at a meeting of the team. Mary has played basketball three years and has lettered two. She was elected president of the Panhandle High School Press Association which will be held in Amarillo next year.

Mary Ella Davis, senior, was elected as the most valuable player for the Eaglettes this year. Mary Ella has lettered two years and is editor of The Eagle's Tale.

Mary Ella consistently makes the Honor Roll. She is yell leader for the girls' Pep Squad, and senior representative to the Student Council. She has held some office throughout every year of her high school work.

Ten girls will letter this year. They are Captain Wanda Brock, Anna, Katherine Overton, Mary Ella Davis, Mary Collins, Billy Greenfield, Kate Eileen Donnell, Renna Beth Bellah, Carolyn Mayfield, Edrie McNeill, and Jean Slack.

By Whonose

Hello! Hello! Hello!

In spring a young man's fancy turns to thoughts of spring football, track, and ——, and, so, I hear, a young lady's fancy turns to thoughts of spring basketball and ——. If you do not believe about the ——, ask some of our prominent athletes.

Poor Basketball! Poor Old Fellow!

Old man Basketball is just about to groan his last for the season. The Freshmen won the boys' intramural, and the girls' intramurals are nearly over. The favorites are the seventh grade and the over-rated sophomores.

Long live the manager! Yowsah folks, little Sherman R. Higdon was appointed manager for 1936-'37. R. E. Prichard, manager this year, is going to come out for football next year.

It only goes to show what great influence little people have. I was just talking to a little grade school boy the other morning and I asked him what his greatest ambition was. Imagine my surprise when he said it was to be as good a marble player as Jack Taylor.

Poor Jack! In about a week or two, Jack Taylor's reign as king of marble shooters will be over. Tops and yo-yo's will make their advent into C. H. S. life. Tops are one of the main sports in Yugoslavia, while the yo-yo was invented by an insane New York inventor.

And am I glad? The old C. H. S. Eagle grew some baseball feathers this year, and so Mr. Sanders is getting a baseball team. Several likely candidates are out, and Hereford and Borger have written and tried to get some games.

Since intramurals are over, boxing is going to come into power. I even hear that Coach Jones is planning a boxing tournament. I surely hope his plans materialize.

Say, I nearly forgot to predict about next year's football team. In my opinion we will have a humdinger. With the start of the 19 year rule, many schools of this district will be affected, but we won't; so cheer for the '37 Eagles.

And say, Coach Sanders has his track team out this week. A group of boys went out Tuesday and made a sand pit. The track is also prepared; so track is here.

Those who will attend are: Lois Goodrich, Eagle's Tale sponsor; Mary Ella Davis, Editor; Jack Taylor, Managing Editor; Sarah Bonnie Bourn, Exchange Editor, and Jack Neil Jennings, Sports Editor.

Home Economics Meet For Second Annual Gathering

District Home Economics Club met at Canyon for its second annual meeting last Saturday with 257 guests from 11 towns present.

The Bovina Club won first in the stunt contest. It gave a typical scene on the XIT ranch with all the cowboys gathered around the campfire singing cowboy songs. The songs included "Take Me Back to My Boots and Saddle," "When the Work's All Done This Fall," and "Home on the Range."

Plainview won second, and Floydada, third. Other towns which gave stunts were Farwell, Happy, Olton, and Muleshoe.

The morning program was given at the Canyon High School, Evelyn Cluck, president of the Canyon High School Club, first welcomed the guests. Superintendent Irby Carruth also extended them a welcome to the high school and Canyon.

Roberts Gives Response

Zena Bell Roberts of Farwell gave a response in behalf of the District.

Miss Laura V. Hamner talked on the life of "Betty Sue in the Nineties." Miss Hamner said, "The best way I can tell Betty Sue's life is by her experiences." Betty Sue had always lived where there were beautiful trees and flowers. She had always had everything she wanted. When she moved to the plains she had to live in a small plain house where there weren't any trees or flowers. A barbed wire fence encircled the house.

One day her brother was going to take her riding in the two wheel carts popular at that time. Just before they left she saw what she thought was a lake in the distance. She got her brother to drive in that direction, but they didn't find the lake. Her brother explained that it was only the mirage.

Her other pleasures were church and a few socials at the schoolhouse.

Forrest Frye discussed the history of cattle brands while Betty Hicks illustrated them with chalk drawings. The first Mexican cattle brands were drawn and their origin given. They showed how cattle rustlers changed cattle brands.

The guests then visited the museum and other sites. Lunch was served at the College Cafeteria.

The afternoon session was held at the W. T. High School with Ruth Richeson in charge. Mr. D. A. Shirley officially represented the college in absence of Dr. J. A. Hill and welcomed the guests to the college.

Miss Jennie C. Ritchie, dean of the W. T. High School, also gave a welcome.

A tea in the College Home Economics dining room closed the session.

Cluck Leads Cast In Club Operetta

Evelyn Cluck, a junior, will have the title role in "Margery Goes Modern," an operetta to be presented by the Choral Club late in the spring.

Loretta Cole, Ruby Guthrie, and Edrie McNeill will have other leading roles.

Preceding the operetta Mary Ella Davis will be presented in her Senior piano recital.

Jack Frost Is Poet In C. H. S.

Surely, you have heard of poets who were recognized over-night. The Junior English Class has one better, because an extremely well-known character was recognized as a poet in about one minute in the English class. Jack Frost, our wintry friend, was dubbed poet by Dell Bagley when a question was asked about a poem written by Robert Frost.

Tsk! Tsk! Wagging tongues always obey a runaway mind.

Law Class Gives World News Wed.

The Commercial Law Class supervised by Superintendent I. B. Carruth, presented the assembly program yesterday.

"The American Observer," a weekly newspaper from Washington, D. C., that features world news, furnished material for the program.

Gridsters Start Spring Practice Mon. Afternoon

Again spring is mingled with football as approximately 15 candidates for the 1936 Eagles football team trotted out on the gridiron practice field Monday afternoon to begin six weeks of practice.

The bunch led by Captain Jack Middleton and those other lettermen, C. L. Drummond, Darwin Dobbs, and Melvin Calliham will be taught the fundamentals of blocking and tackling during the season.

Coach Jones said, "If the boys are in shape and everything is suitable we will play a game with the seniors toward the last of the season."

Other material in the high school besides the lettermen are: Ray Ford Rusk, John B. Pope III, D. A. Butler, Fairy Hill, Douglas Brasuel, Jimmie Carr, Jimmie Pope, Jimmie Fite, Joe Gill, R. E. Prichard, Joe Grady Crowley, Herbert Mariner, Tommie Butler, Jack Inman, D. E. Mariner, Forest Hill, Glenn Hicks, Woodrow Hicks, and Scott Downing, Jr.

Boys Intramurals End, Girls Begin; Finals Played Fri.

Boys' basketball ended, and the girls started last week-end, with interesting things to talk about.

The towering Freshman quintet won the intramural tournament Friday night, subduing the seniors 20 to 11.

Johnson, senior guard, was high point man with 10 of the seniors' 11 tallies. J. D. and Eston Brietling, freshman guard and forward, tied for second place with seven points each.

The winners will be rewarded by having their names engraved on the trophy.

Cox Referees Boys' Finals

Ray Cox of W. T. S. T. C., served as referee for the final tilt.

The following all tournament team was chosen by Coach Jones: Forwards: Eston Brietling, Fr., and John B. Pope III, Jr.; Center: J. Fite, Fr.; Guards: Scott Downing, Jr., and O. D. Brietling, Sr.

Girls' intramurals began last Monday afternoon with the seventh grade defeating the seniors, and the sophomores defeating the freshman.

Finals Played Friday

The final game will be played Friday afternoon in the Grade School Gymnasium from 4 to 5 o'clock, with admission of 10 cents.

All the teams seem to be progressing; however the seventh grade is slightly favored.

Double eliminations will be made before the two teams enter the final rounds.

Mrs. Ray Campbell Leads Study Club

A joint meeting of the Parent-Teachers Association Study Club and the Faculty Study Club was held last Thursday in the high school building.

Mrs. Ray Campbell read an article from the Parents Magazine entitled, "Do Parents and Teachers Need Each Other?" A round table discussion was held after the reading.

Superintendent I. B. Carruth told about his trip to St. Louis, giving details from the best speeches he heard. Mrs. Bill Robinson informed the group about the organization and work of the P. T. A.

Mrs. D. A. Nicholas presided.

Basketball Teams Have Picnic Thurs.

Coaches Gerald Brown, Lenna Foster, and Cleveland Jones took the boys and girls basketball teams to the Palo Duro Canyons last Thursday evening.

The boys and girls climbed to the rim of the canyons where a rock throwing contest was held. Darwin Dobbs was able to throw a rock out of sight before it would start toward the ground. Wesley Cox and Ray Ford Rusk came close to throwing a rock as far as Darwin, but never succeeded. Mary Collins lead the girls in rock throwing.

When the group reached the picnic grounds, Miss Foster, Mr. Brown, and Mr. Jones had supper prepared for the hungry group.

"I sure thought I could eat more than six hot dogs and buns," said Tom Harris, as he refused the seventh hot dog.

Bruce Carruth and his father, Mr. I. B. Carruth, superintendent, came to the Canyons and ate supper with the group.

After supper the group played "Shoot the Buffalo."

Deadline Is Set For Intramural Fite-Nite Entries

Norris Pushes Bill to Bring Electricity to All Farms

BY SPECIAL CORRESPONDENT

WASHINGTON.—A permanent national program to bring electricity to the country's 6,288,642 farms—of which only about 750,000 now have such service—is embodied in Senator George W. Norris' bill, recently passed by the Senate, to make permanent the Rural Electrification Administration.

If the House acts favorably and the president approves the measure, $420,000,000 will be available over the next 10 years for loans to farm co-operatives, utility districts, and other non-profit or limited dividend associations of farmers. These groups will build and operate systems of distribution lines in areas not now served with electric power.

About one farm in 10 in the United States now has such service. In the west, where electricity is widely used for irrigation, and in the thickly populated north Atlantic states, the proportion is greater—about one farm in three. In the south and middle west, rural electrification is rare and in some states almost non-existent.

The present REA, created less than a year ago with emergency funds, has found widespread interest in co-operative effort to bring electricity to the farm, especially in states which have well-entrenched farm organizations.

* * *

IT has either contracted to loan or earmarked a total of $8,000,000 for 7500 miles of new distribution lines. More than 27,000 new rural customers will have central station service for the first time as a result of these operations.

The program usually works this way: Farmers in a county or township organize themselves into a co-operative and apply to REA for a loan. A careful technical survey is made to determine the soundness of the project, which may run in size from a line 25 miles long serving 75 families to one as long as 350 miles with 1000 customers.

If the loan is granted, the line is built and power is purchased by contract, at wholesale rates, from a nearby central station, either municipally or privately operated.

Rates are fixed to the consumer owners of the line at the cost of power plus operating and upkeep charges and enough to amortize the loan in 25 years at 3 per cent interest.

The Norris bill provides that where central station service isn't available, the organization may also borrow to build and operate a generating plant.

* * *

TO encourage immediate heavy use of power, it is provided that the farmer himself may borrow to finance wiring of his home and purchase of electrical equipment. His loan must be paid off in five years.

Norris believes his measure removes the major barriers to farm electrification. High rates, the high cost the farmer has had to pay for line construction, and the power companies' policy of extending lines only in more populous areas have blocked any real effort toward that goal, he charges.

Most utility managers criticize the program as "economically unsound." They cite the low number of prospective customers to the mile, heavy farm indebtedness, and the fact that 40 per cent of all farms are tenant-operated, as proof that self-liquidating and self-sustaining extensions are impossible.

In their opinion, the program is a further extension of government-financed competition with private business.

The bill met with little opposition in the Senate. A hard fight is predicted in the House, where the U. S. Chamber of Commerce and utility interests are expected to try to halt it. If it gets by the House, presidential approval is believed certain.

German Troops Once More Drill in Rhineland

The entire world feared war would come soon after Reichsfuehrer Adolf Hitler, lower left, sent Nazi troops goosestepping into the Rhineland in violation of the Treaty of Versailles, which in part provided for permanent demilitarization of that strip of German territory along the French and Belgian borders. Germany, in the Locarno Treaty of 1925, agreed to respect this clause. In announcing his decision to remilitarize the Rhine area, Hitler asserted the mutual assistance pact between France and Russia had violated the Locarno pact prior to his action. France called for strong punitive measures against Germany. Nazi troops are shown in the top photo, being reviewed by Defense Minister Werner von Blomberg. Pictured at the lower right are French artillerymen. The map shows the zone along the historic Rhine into which Hitler sent his troops.

The location has been accepted by the government, and payment is being made, stated Mr. Jones.

Crop Loans Will Be Continued to Farmers Says Co. Agent

Emergency crop and feed loans for the year 1936, as authorized by the President's Executive Order o. February 28, will be available at the County Agent's office in Canyon the first of next week, T. L. Miller, Field Supervisor, stated here today. Regulations governing the loans have been issued.

Gov. W. L. Myers of the Farm Credit Administration said the loans will be made through the same channels used in previous years. Farmers eligible may obtain applications from the field supervisors or the local emergency crop loan committees already operating in most counties.

Loans will be limited to the minimum amount necessary to meet the immediate and actual cash needs of farmers who are unable to obtain credit from any other source, and in no instance exceed $200 to one farmer. Applicants who can get credit from any other source, will not be eligible for emergency loans.

Loans will be made for the production, planting, cultivating, and harvesting of crops, for summer fallowing, for supplies where they are necessary for production of 1936 crops, or to produce necessary feed for livestock.

The loans will bear interest at the rate of 5½ per cent a year and be secured by a first lien, or an agreement to give a first lien, on all crops financed in whole or part with the proceeds of the emergency loan. Where loans are made for the production of feed for livestock, they will be secured by a first lien on the livestock to be fed.
